

DR. PARINYA YANPISITKUL

Dr. Parinya is nationally and internationally recognized in plastic surgery societies. His professional background contributes significantly to his skill to tailor plastic and reconstructive surgeries for his patients. When talking with patients about the objectives they want to achieve with plastic surgery procedures, he always carefully evaluates the most suitable approaches that achieve the best possible results for them.

Dr. Parinya and his team strive for optimal care for each and every one of his patients, sharing a plain talk approach to educating patients, helping them make optimal decisions. Committed to delivering the most state-of-the-art cosmetic surgery with the most rapid and predictable recovery.

In addition to cosmetic treatments, he performs complex reconstructive procedures to restore a more a natural appearance to the face and body and/or improve function after a traumatic injury or illness. This ranges from breast reconstruction for cancer patients to nasal surgery to correct breathing problems.
